Los Angeles, CA 90012

Dear Mr. Olivo:

The Westchester Town Center BID strongly supports Los Angeles World Airports' proposed Landside Access Modernization Program (LAMP). This project will modernize the 3<sup>rd</sup> busiest airport in the United States, which will help employees, residents and visitors more readily access LAX facilities. Additionally, the project will create thousands of jobs for people in Los Angeles County, significantly reduce traffic in and around the airport, improve the environment by reducing the number of automobiles on the road, and improve the overall efficiency and function of LAX.

This is a win-win for the City of Los Angeles, as the project will add an Automated People Mover, Consolidated Rental Car Facility, and two Intermodal Transportation Facilities to serve LAX. These improvements will not only alleviate traffic congestion but will improve air quality. This is exactly what is needed to enhance LAX's status as a world-class airport.

It is our hope that you and all agencies involved in the City of Los Angeles will work to move this important project forward as quickly as possible. As demonstrated in the Draft Environmental Impact Report, it is clear that this project will benefit the areas near the airport and the region as a whole. Additionally, this is a project that has the support of business, labor, and community groups

The Westchester Town Center BID strongly supports Los Angeles World Airports' proposed Landside Access Modernization Program (LAMP). Please feel free to contact me at 310-417-9030 as we may assist in any way.

Sincerely,

Donald R. Duckworth  
Executive Director
